**ACKNOWLEDGEMENTS**

The question papers have been authored by personnel belonging to the respective Education Departments, however, the solutions are the sole responsibility of Dr. S. Hansraj (University of Natal). Selected problems within the notes/ topics were done by Professor P. Pillay (University of KwaZulu Natal). Typesetting was done by Dr. Hansraj, including the separation of examination questions and their solutions into topics

We are also grateful for the kind advertising by the outstanding South African institutions referred to on the cover that made it possible to provide this publication at an affordable cost.

Thank you to Kailas Printers for expertise in printing which helped to make this book a presentable document.

We also express gratitude to the various schools for their support.

Finally we are grateful to our families for their patience and support during the completion of this project.

*While the authors have taken great care to ensure an error free publication, we realise that this is impossible. We will not be surprised to find some errors in the work and we apologise for this in advance. We trust that the detailed explanations and commentary provided will be of help to all students in mastering the mathematics needed to succeed in the examinations.*
