

January 12, 2006
The Principal/ Parent,

SOUTH AFRICAN MATHEMATICS OLYMPIAD TRAINING PROGRAMME

Learners from Grades 8 to 12 that excel in Mathematics, particularly in the South African Mathematics Olympiad and the AMESA-KZN Mathematics Challenge are invited to participate in a short course to prepare for the Olympiad. Schools should enter their candidates directly with the South African Mathematics Foundation for the actual examination.

	Time	Dates
GRADE 8 / 9	13h30 – 14h30	18 & 25 February 2006 4 & 11 March 2006
GRADES 10/ 11/ 12	14h30 – 15h30	

Venue: Science Block, UKZN Howard College Campus (enter via Gate 3 on Francois Road)
Cost: R150 per student (total cost for 4 weeks)
Programme: Problem Solving Techniques (lectures); Hands on problem solving – discussion
Students will be provided with a selection of past South African Mathematics Olympiad papers and their solutions.

A copy of this letter may be provided to high achieving grade 8 to 12 learners for the attention of their parents. This letter should be carried to the lecture on 18 February 2006 with the details filled in below.
